

Women4Energy International Conference

Haus der Wirtschaft, Stuttgart, Germany

18th December 2014

After a successful conference in 2013 Steinbeis-Europa-Zentrum is pleased to announce this year's Women4Energy International Conference taking place in Stuttgart, Germany on **18th December 2014**. The conference is supported by the Ministry of Research, Science and Art in Baden-Württemberg in the frame of KIC InnoEnergy Germany. The conference reaches out to all professionals active in energy related innovation to:

- Create new business ideas and technology solutions for the energy market
- Generate and discuss new business models to get solutions to market
- Encourage innovative business creation, and to
- Enhance market entry for innovative energy technologies, processes and services.

Come and join us for a unique opportunity to get insights into global energy challenges, learn about future trends and market needs. Increase your own network by getting in touch with female experts in energy science and entrepreneurship in all energy related fields. And get engaged in the elaboration of innovative solutions for tomorrow.

Programme Highlights

Challenges and solution approaches of a German public utility company

Presentation of future trends in renewable energies (wind energy, smart grids, etc.)

GE presents global trends for companies in the renewable energy market

Representatives from industry, investors or other related organisations will have the opportunity to

- Connect to leading research and industries in the energy field
- Learn about newest research projects and results
- Transport key messages on market needs for new products and services
- Align with other stakeholders in the energy field

The day's programme is accompanied by multiple networking opportunities throughout the day. A call is open for women in science and women in industry to send their ideas and newest research results for technology solutions and business opportunities to be presented at the conference. For more information – turn the page!

The Women4Energy Conference encourages female entrepreneurs, women from energy related industry, women in science from research institutions and universities, post doctoral fellows, PhD students, graduate students and master students to submit an abstract with their research results and technology solutions as well as their business ideas in any of the following three fields:

- 1) Renewables
- 2) Intelligent building / smart cities
- 3) Gender relevance in Energy

The fourth session will be a round table with representatives of public utility companies (energy sector)

- 4) Challenges of public utility companies (energy sector) and energy suppliers

In case you do not have research results / technology solutions / business ideas, but still valuable insights and knowledge on these topics, we would be happy to give you the opportunity to talk about and present your professional experiences during the afternoon sessions. In this case no abstracts are necessary.

The sessions on energy topics will give the participants the opportunity to discuss selected research results, technology solutions and business ideas.

We invite you to send your abstracts and a short CV using the [Word template](#) (maximum of 2 pages in English) from the [event website](#).

Submission deadline is 5th December 2014.
